

Solution Sheet

ENTERPRISE WI-FI

BETTER NETWORKING & ANALYSIS, BETTER BOTTOM LINE

Today, wireless networking is more important than ever for organizations that want control and ubiquitous access to their network. NetFortris Enterprise Wi-Fi offers simple Wi-Fi solutions to empower your organization with actionable insights, networking tools and customer engagement.

BENEFITS AT A GLANCE

Centralized Cloud Management

View your network in one single pane of glass. Analyze data across your locations to make smart, quick business decisions.

Location Analytics

Monitor connected devices, dwell time, and repeat visitors with easy-to-read charts. Compare location data to gather customer engagement trends.

WIDS/WIPS Security

Proactively scan for wireless threats with dedicated security radios and auto containment policies. Facilitate preemptive action against malicious rogue devices.

Best-in-Class Hardware

Since only you see your emails and your personal HUD account, there's no need for remembering or updating passwords.

NETWORK CONTROL, RIGHT AT YOUR FINGERTIPS

With NetFortris wireless cloud management, your entire network is all in one place. Change network policies, manage application usage and gather valuable customer engagement data for maximum ROI. Our software-defined platform makes network adjustments easy, whether you have one location or several hundred.

DEDICATED SECURITY FEATURES FOR YOUR BUSINESS

NetFortris access points include dedicated security radios, scanning and mitigating wireless threats at all times. Whether it is a POS device or client endpoints, you need to be confident in your ability to protect employees and your customers.

PROVIDE AN UNPARALLELED GUEST EXPERIENCE

Customers are the lifeline of your business, so provide them with a unique experience that gives your business an edge. Create engaging opt-in features and sign on experiences, with customizable captive portals. All the while, keeping sensitive corporate traffic secure with SSID segmentation.
