

# ACCESS COMM-UNITY THROUGH MICROSOFT TEAMS

Using one app to collaborate with your internal colleagues and another to reach external customers, partners and suppliers doesn't make sense. *And, it's a productivity killer.*

Now your team can access Comm-unity's enterprise-class unified communications features directly from your Microsoft Teams collaboration application.

Get collaboration, messaging and calling all in one place!

## MORE THAN INBOUND & OUTBOUND CALLING

Get enterprise-class calling capabilities not available with Direct Routing to Teams or standard Microsoft Teams Calling Plans from Comm-unity:

- ✓ Call flows and ring groups
- ✓ Call recording
- ✓ Call center functionality, including wallboards
- ✓ Call reporting
- ✓ IP desktop phones
- ✓ More!

Manage all of these features through our Admin Portal, which syncs securely with data from Microsoft Office 365.

## COMM-UNITY + MICROSOFT TEAMS AT WORK

Make and receive calls using your Comm-unity phone number directly within the Teams interface.

Work in the office or remotely using your PC/ Mac desktop, laptop or iOS/Android mobile device.

See placed, received and missed calls from within the Teams application. Click to call back.

## COMM-UNITY + MICROSOFT TEAMS BENEFITS

### Increase Productivity

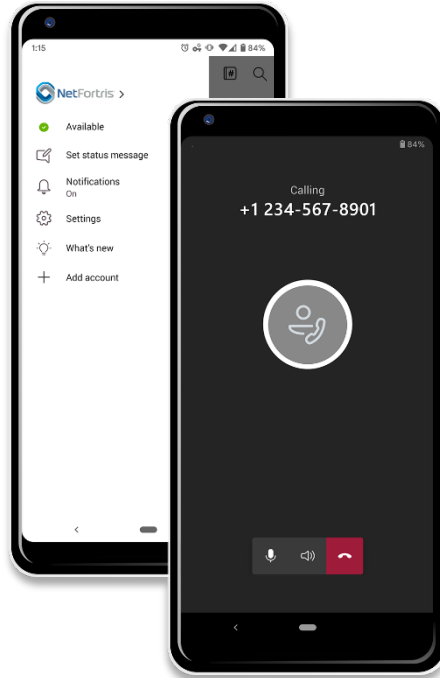

Stop app switching and streamline work with internal and external communications on one platform.

### Simplify Remote Work

Give your employees a simple, universal tool they can use to get work done at the office, at home or on the go.

### Rapid Installation

There's no hardware or software to install. Simply enable the functionality for your users with a Microsoft phone system license.

### Secure Syncing

Manage Comm-unity functionality from our Admin Portal, which syncs securely with your Teams environment.

### Stay Connected

Our integration platform is distributed across global data centers and built for resilience and high availability.

### Reduce Management

One unified platform for communications and collaboration means fewer systems for your IT department to manage.

## ADDING COMM-UNITY TO MICROSOFT TEAMS IS SIMPLE

Our Teams integration is easy to buy, easy to add and easy to use.

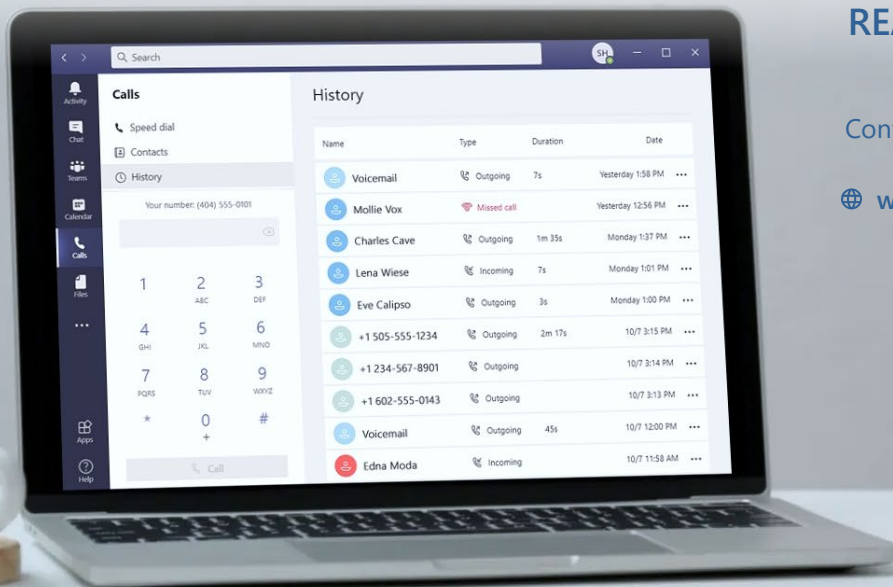

Simple per-user subscription

No number porting required

No hardware or software required

No complex PBX configuration required

No special training required
