

AWARDS

We are proud of our award-winning solutions!

BUT WHAT MATTERS MOST IS...

What Our Customers Say

"NetFortris gives us the flexibility we need to quickly open a new center or move centers efficiently and cost-effectively."

Brian Leonard, IT Manager – Lennar Homes

"For me, NetFortris is quick and nimble and a true partner. Their team really dug in when we first got started to make sure they understood our business and where our strategy was going."

David Caudill, Vice President of IT – Thorntons

"The NetFortris solution provided powerful features, HUD, call center features, and the control we were looking for to manage our own system."

Jonathon Hamburg, Founder & Chief Strategy Officer – Berkeley Solutions

"We've reduced costs and improved performance, reliability, and scalability since deploying NetFortris."

Matthew Pasco Vice President of IT – The Oakland Raiders

COMPANY

About NetFortris

NetFortris designs, delivers and supports unified communications and network solutions for 11,000+ Enterprise and mid-size businesses worldwide. Our customers and partners rely on NetFortris to help them improve their business operations, increase efficiency and build profitability.

About Comm-unity

Comm-unity is our new UCaaS platform that simplifies the way you communicate -- voice, video, messaging, collaboration, conferencing, meetings and call center -- with one reliable and easy-to-use solution.

Our Mission, Vision & Values

NetFortris helps our customers achieve greater success by deploying, managing, and supporting technologically advanced, cost-effective business communications solutions.

WHO USES NETFORTRIS?

MULTI-LOCATION ENTERPRISE

Today's enterprise needs scalable, customizable solutions for voice and data, to support the contact center as well as mobile employees. NetFortris solutions work together seamlessly to extend your reach.

RETAIL & RESTAURANT

Need to ensure PCI compliance on every payment, while expanding your opportunities beyond traditional retail boundaries? NetFortris' PCI-certified solutions can deliver – from the network to the cloud.

FINANCIAL SERVICES

Worried about data security, analytics and compliance with Dodd-Frank and other SEC regulations? NetFortris solutions fit together perfectly to address the unique challenges of today's financial services providers.

HEALTHCARE & WELLNESS

As a healthcare provider, you've got more than network infrastructure to worry about. NetFortris provides reliable, HIPAA-compliant voice and data connectivity as an integrated part of your communications strategy.
