

Solution Sheet

VIDEO COLLABORATION

IMPROVE PRODUCTIVITY FOR DISTRIBUTED WORKFORCE

NetFortris Video Collaboration is an easy-to-use, cost effective, and professional tool for meetings that get results. With NetFortris Video Collaboration powered by Zoom, you can schedule HD interactive video meetings in advance or on the fly – and even share your screen – with up to 100 attendees from the comfort of our UC platform, Heads Up Display™ (HUD).

BENEFITS AT A GLANCE

Modern Conveniences

No need to book conference rooms. Start a virtual conference and talk to each other as if you were in the same location.

Go Green

By not contributing to the incredibly high rate of business air travel, customers reduce their carbon footprint and potentially overall energy use.

Save on Travel & Expenses

Plan your next visit via video collaboration for an estimated savings of nearly \$1,000 per trip.

One-Click Connectivity

Users and guests have access to on-demand private virtual conference rooms with a simple link.

VIDEO COLLABORATION FEATURES

Improve Productivity for Distributed Workforce

When 80% of communication is mainly non-verbal visual cues, misunderstandings happen far more often when relying solely on the verbal or written exchange. Video collaboration brings the focus and clarity only visual cues make possible. This leads to more productive meetings and better communication.

Integrated Scheduling

Schedule and update upcoming video collaboration meetings in advance through the Scheduling Wizard that works with your calendaring system.

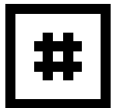

Multiple Participants

Support for up to 100 video participants and up to 125 audio attendees.

Instant Screen Share

One-click HD screen sharing in Heads Up Display™ (HUD) for an instant interactive meeting.

Personal Meeting ID

Every user gets a unique meeting ID URL that will expire at the end of a session. Attending a meeting is as straightforward as clicking on a link.

Track Meeting Details

HUD stores dates, times, and meeting IDs to track or reference to past meetings. Plus, record meeting in MP4 or M4A format.

About NetFortris

NetFortris delivers secure, reliable communication solutions, customized to meet the unique needs of mid-market and enterprise customers. NetFortris cloud solutions, carried over our private, nationwide MPLS network, include SD WAN, Voice & UCaaS, Network and Data Security and 4G backup. Not only do we manage these services with, or on behalf of our customers, we consolidate billing to streamline their operation. Customized Solutions, Secure and Reliable, Geared toward Growth, that's Business Communications Simplified.
