

Fortress Secure Office Solution ...built for small business

Your business may be small, but your technology needs are big. You need core capabilities that big companies use, but without the big price tag or the big headache of sourcing and deploying solutions and making them work together.

Fortress is the first office technology bundle that includes everything you need to get your small business connected, communicating and collaborating — securely.

GET ONE SOURCE AND ONE SUBSCRIPTION

The Fortress Secure Office Solution combines all the essential technology solutions you need in one package from one source on one subscription.

ORDER AS EASILY AS OFFICE SUPPLIES

Just select the Fortress solution size you need — for 5, 10 or 25 users.

GET STARTED IN JUST 3 WEEKS

We won't leave you to plug-and-pray. NetFortris ensures your Fortress solution is configured and deployed right in as few as three weeks from your order. And, if there's ever an issue, give us a call. We're standing by to help.

Enterprise-class solutions right-sized for your small business

Our Fortress Secure Office Bundle is an integrated enterprise-grade tech stack, not an off-brand basement bargain. You benefit from our investment in infrastructure, app development, technology partnerships and expertise, including:

- **BROADBAND INTERNET USING LEADING CARRIER NETWORKS**
- **SD-WAN**
- **IP PHONES**
- **FIREWALLS + WI-FI ACCESS POINTS**
- **APPLICABLE SWITCHES**
- **EXPERT INSTALLATION**
- **24/7 CUSTOMER SERVICE**

Built for scale...flexibility

Need a few extras? No problem! We've got you covered with a selection of upgrades and add-ons to meet your unique needs today and as your business grows.
